

# HEAT AND COMBUSTION

## A NEW WAY OF SEARCHING FOR YOUR PRICES

Taking in board what you have told us through various feedback, we have built into your portal another way of obtaining your product prices. We have built in a category system as well as all the other systems in place. Hopefully this will make it even more user friendly.

Obvioulsy there will be a small amount of tweaking to do when it's up and running so please be patient.

We will also in time, again through listening to your valued feedback, building a live stock checking system so you will be able to not only get your up - to - date prices but also check to see what we have in stock. These are the steps we are making for you which will turn into e - commerce in the future.

We do value your feedback as members of the Live Price Portal System so if you have anything you would like us to do for you or any sugestions, please feel free to contact us.

You might notice today there are small periods of time where you can not log into the portal as we build the new parts of the system for you.

**The H&C Team**
