

H&C HEAT AND COMBUSTION

CHRISTMAS CLOSURE FOR 2013

We would like to take opportunity to thank you all for all your support and custom throughout 2013 and we look forward to being your solution provider throughout 2014 and beyond.

This year we will be working hard right up to and including the 24th December. We will be closing at 14:30 on Tuesday 24th December. We will be back to supply your solutions on Thursday 2nd January 2014.

Through 2013 we've been working very hard to be one step ahead of your B.M.S. requirements and with this in mind we built you your **CUSTOMER LIVE PRICE PORTAL**, QR codes throughout the catalogue, a complete datasheet database and of course, all the new products introduced to our product portfolio. We also have the **Facebook** page ready for you to find out whats been going on at Heat & Combustion Supplies Ltd.

We have also launched the **2013 - 2014 products catalogue**. If you require a copy then you can order one through your **Portal, download** a copy from the website or just give us a call, as always, we would be happy help.

Once again, at this festive time, Let us wish you, your family, friends and colleagues a peaceful holiday and a happy new year. Thank you for your support and custom through 2013.

The H&C Team
