

HEAT AND COMBUSTION

HEAT & COMBUSTION METERING SPECIALISTS

Delivering a comprehensive range of high quality meters across the industrial, commercial & domestic market

HOT AND COLD WATER METERS

Our range of multijet dry and wolfram type hot and coldwater meters, complete with pulsed output, from sizes 1/2" - 2" sc and 2" - 8" flanged.

ULTRAFLOW U1000

The new alternative to cutting pipes and mechanical meters from Micronics, for simple, low cost flow measurement from outside the pipe! Suitable for iron, steel, stainless steel, copper and plastic pipes.

ZENNER RANGE OF WR3 BATTERY HEATMETER CALCULATORS

The New Zenner range of WR3 Battery Heatmeter Calculators M.I.D Approved available in pulse values of 1,10 and 100 litres.

COMPACT HEATMETER

The New Zenner range of C2 combined heatmeter c/w pulsed output, available in 1/2" EXT AC - 1" sizes and various flowrates.

DMHU SERIES - ULTRASONIC M.I.D. APPROVED HEAT METER

In the development of the DMHU Series compact meter the experience of over 30 years of producing heat meters has been united with the customer wishes of today and tomorrow.

TURBINE GAS METERS ELECTRONIC DISPLAY - THREADED CONNS

A range of threaded connection, low pressure drop turbine gas meters, electronic display C/W pulse and 2metre plug and lead connection.

THE ELSTER RANGE OF THE QA MECHANICAL TURBINE TYPE (WAFFER PATTERN)

The QA range is a turbine meter based on the rotation of an impellor, the speed of rotation being proportional to the flow rate of the gas.

ACE1000

The Actaris ace range of single phase directly connected electricity meter - compact and light weight.

ACE3000

The Actaris ace range of 3 phase directly connected electricity meter - compact and light weight.
