

H&C HEAT AND COMBUSTION

NEXT DAY DELIVERY

As you may or may not know, we at [Heat & Combustion Supplies Ltd](#) have built our success on being able to deliver to you, when possible, the very next day.

Over the last year we have expanded our stores operation by 87% and we now hold more stock than ever before. With this in mind but as always, subject to stock availability, we aim to send out your orders on a NEXT DAY delivery service as standard (Mainland U.K.). We also have various other options available for delivery such as Saturday Delivery, Pre 09:00, Pre 10:00 and Pre 12:00. Please feel free to contact us for a quote. Our primary courier is Parcelforce with a back up service from FedEx amongst others. With regular consignments being despatched to the U.K, Ireland, Northern Ireland and Europe, where ever you are, we can supply your H.V.A.C. solutions.

Orders must be received before 15:00 (Monday to Thursday) or 14:00 (Fridays).

The H&C Team
