SHARKY 775 ULTRASONIC HEATMETERS

We are very excited and have the pleasure to announce we are now a distributor for DIEHL METERING SAPPEL & would like to introduce the **SHARKY 775 Ultrasonic Heat Meter**. The SHARKY range has a very productive history being manufactured since 1992. They are made in Germany so quality is second to none, M.I.D. approved and come with a 16 year, **YES A 16 YEAR BATTERY LIFE**. The SHARKY 775 comes battery powered & complete with 2 metre sensor cables & pockets as standard. They also come with either pulse or M - Bus outputs (please specify when ordering). It is also available in a Heating & Cooling configuration. All this and we havent told you about the best bit **THE PRICE !!!**

Coming in sizes from DN15 to DN100 and with optional extra's such as 3, 5, 10 metre leads, Battery, 240v and 24v power supply, RS232 or RS485 output card, 4 - 20ma output cards & available in heating & cooling applications.

Compare these high quality, German made M.I.D approved ultrasonic heatmeters to anything else on the market & we are more than confident you'll be as pleased as we are at the prices. With the wide selection of optional extra's, the SHARKY 775 should be able to provide the solution to your ultrasonic heatmeter applications.

The H&C Team
